Win clients with the Magic Photo Business Card!

When you are running your company you are awash with business cards and lets face it, most of them are pretty forgettable. However thanks to our new Magic Business Card system yours need not be one of them.

Based on our highly successful Magic Photo software, the magic business card allows you to stand out from the crowd by using a specially recorded video up to 30 seconds long.

In that 30 seconds you can give background on your business, showcase work that you are proud of or just flat out say why people should hire you.

How it works

Android

iOS

Firstly you will need our special app which can be downloaded using the QR codes to the left. You can also search 'Magic Photos Crossbow' in the App Store or 'Magic Photos EmotionsAR' in the Google Play Store.

Then you record the video that you want to use, we upload it to our servers and a picture of your business card is set as the trigger.

Then all you need do is load up the app and hover it over your business card for the magic to begin!

Try it yourself

To see the system in action simply hover the app over the business card to right to see our video.

For a limited period the cost per video has been reduced from £245 to just £145+VAT per year so book yours now!

What are you waiting for? Call us now on 01384 77703 to set up your Magic Business Card!
